WHOLE PROJECT TIMELINES

FLOOR 5-11 UPDATE

Construction work on floors 9, 10 and 11 will begin on October 16, 2017. It will start with the removal of artwork and furniture. By October 18th temporary walls for the construction will be installed and the laundry rooms will be closed for renovations. During renovations, laundry service will be provided to tenants on the affected floors.

Parkview Lounge will be open if you want to get away from the construction for a while.

KITCHEN UPDATE

Plans for a re-designed kitchen capable of producing both dairy and meat dishes are now complete. The drawings will send out to contractors for pricing in November.

If you have any suggestions for dairy recipes you'd love to see on the menu, please submit your requests to the reception desk.
